Lab-3

No need to Submit. But you have to keep the design code for the next assignment.

Problem 1: Create a Login page for the MIU University store as per the screen produced below using any layout of your choice.

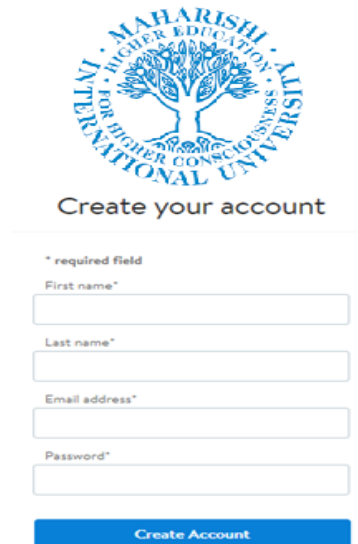

Note: Here Forget Password is not a button, you have to make TextView as a clickable text by using these properties,

android:autoLink="all"

android:clickable="true"

Problem-2

Design the below screens using Constraint Layout.

Reading Exercise to know more about Constraint Layouts:
